INDUSTRIAL

Air Files

- ergonomic
- highly durable
- simple operation

An air file is suitable for deburring, filing, fine grinding and lapping; in mould making, fixture- and apparatus construction and in foundries.

Ideal for industrial and production filing applications on steel, aluminum, brass, wood and other materials.

Fast, efficient filing, sanding and deburring tool - weight reduced by half for comfortable operation over long periods of time.

Ergonomic

Our low-vibration and light file is steady during operation. The ergonomic handle assures a low-fatigue- but powerful operation.

Highly durable

Due to the efficient and well-tested construction, this file is highly reliable and requires a low maintenance investment even when used in 24/7 operations.

Simple operation

- Simple to operate
- A simple and fast exchange of the file
- Optimum power to weight ratio
