Newsletter No. 2/2018

7. 1. 2018

Dear DEPRAG-INDUSTRIAL Associate,
we take the opportunity to inform you about new and improved products that were either added to our product line or where we made improvements. Detailed technical information and pictures, as well as a catalog in PDF-format can be found on our website www.depragusa.com.

NEW PRODUCT:

- Air file FS911-370BU

File FS911-370BU

We would like to introduce our new air-file FS911-370BU, which is best-suited for the removal of sharp metal edges, the filing of cast iron and other filing applications. Filing in open cavities of different materials is simple and straightforward. The increased mass of the file itself allows for better absorption of the filing-vibrations and improves the file's access.
